COMMENTS:

Dear Clare:

Thank you for the beautiful book and warm letter of good wishes.

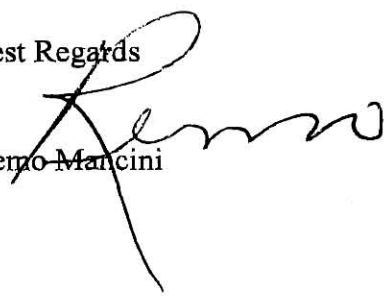

As you know I have great respect and admiration for you and your wife Anne.

The challenges facing the WECDC Board are significant and numerous; however the individual Board members are very dedicated and accomplished people ready for the job at hand.

The Board is already working as a team and I am confident we can revitalize the Commission, make significant progress in improving our Region's image and take the steps needed to diversify the regional economy.

I hope to call you in the next week or so and arrange a get together to obtain your valued thoughts and advice.

Best Regards

  
Remo Mancini
